

REMARKS/ARGUMENTS

Claims 86, 89-94 and 123 are pending. By this Amendment, claims 86 and 89-92 are amended and claims 87, 88, 95-122 and 124-170 are canceled. Reconsideration in view of the above amendments and the following remarks are respectfully requested.

Applicant appreciates the indication that claim 88 defines allowable subject matter. By this Amendment, claim 86 has been amended to include the subject matter of claim 88 (now canceled), thereby obviating the prior art rejections set forth in paragraphs 10-12 of the Office Action.

In addition, the now pending claims have been amended for clarity only to avoid the rejection under 35 U.S.C. §112, second paragraph as set forth in paragraph 8 of the Office Action. For example, the abutting member in claim 86 has been set off with a semi-colon so as to clarify that it is intended to be a separate element. In addition, the face and the active surface are described as being tilted in relation to a vertical plane, per page 18, lines 10-15 and 29-34 of the original description.

Furthermore, the claims have been reviewed to ensure antecedent basis, and claim 86 now indicates that the adjustable member is movable in a sliding direction, and a block that is actuated to slide in the sliding direction, to satisfy the Examiner's concerns.

In view of the above amendments and remarks, Applicant respectfully submits that all the claims are patentable and that the entire application is in condition for allowance.

The Commissioner is hereby authorized to charge any deficiency, or credit any overpayment, in the fee(s) filed, or asserted to be filed, or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Account No. 14-1140 under Order No. PTB-4017-124.
